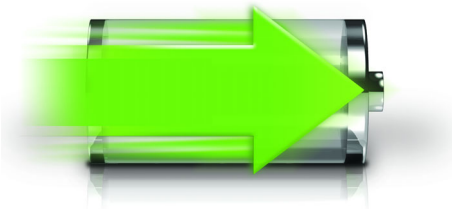
Highlights

Plug-in charging dock
The wall-mounted dock gives your iPhone or iPod a save and secure place to charge. Simply plug the dock into the wall to cradle your iPod or iPhone - this gets your iPod or iPhone up off the floor where it could be stepped on, and up out of the way of spills and countertop messes.

Safely charge your device
Plugging your device into a cable-based charger and leaving it on the floor or countertop puts your iPod or iPhone at risk of being stepped on or damaged from spills and splashes. Instead, using a wall-mounted charger elevates your iPod or iPhone for safe and secure charging.

Delivers more power



Don't sit around waiting for your device to charge! The higher power output of this charger ensures your device is fully charged in a shorter amount of time compared to standard, less powerful chargers.
